This couple from Ohio had been working on the renovation of their ‘40s home when they stumbled upon the unthinkable. They were done with the first and second stories of the house, but it was time for them to work on the basement now. They had no clue what was waiting for them down there.

Demolition In Progress

They felt intrigued by the thing that they found after hacking at the plywood. However, it did not even occur to them that their discovery would mean launching a federal investigation. What did they find?
